

## STEVENS INTERNATIONAL ENVIRONMENTAL POLICY

Stevens International specialized in international mobility, moving and storage, presents this policy as a statement and a commitment to environment protection management. It is extended to all our employees, clients, corporate accounts, worldwide agents and third party service suppliers.

While conducting our business activities we are committed to preserve the environment, cultivating actions that contribute to our ecology protection and enhance life quality to our society, now and in the future. We shall comply with current applicable local legislation.

Stevens International has in place measures and controls for the prevention and mitigation of the environmental influences, especially regarding the disposal of waste generated by our industry as well as general organic and solid waste. It is our expectation to have the same commitment from our business partners.

The continual improvement of procedures to reduce the use of natural resources, such as energy, trees and water as well as to the reduction of the creation of gas emissions is a mutual goal.

Therefore, we must include in our corporate training topics and sessions that emphasize the importance in conserving and protecting our environment, striving for company-wide awareness to the importance on daily activities, including work, to preserve the environment.

It is also our goal that our employees, business partners and suppliers meet our Environmental Policy, demanding appropriate material or proving services according to our policy.

The function of this correspondence is to request you to review it and confirm your company, acting directly through your employees or others on your behalf, fully understand, and agree to comply with it.

Sincerely,

Stevens International Forwarders

### Agreement

I confirm I have read, understood and accepted the above Environmental Policy
